

Install Love, It is really quite simple

By **admin** May 10, 2013

Its only & only pure selfless unconditional love that can help save our humanity. Only love has the strength to change mind, so give and get lots of love!!!.....

(Reproducing my favorite article which I read years back in Times of India.)

Tech Support: Yes, how can I help you?

Customer: Well, after much consideration, I've decided to install Love. Can you guide me through the process?

Tech Support: Yes. I can help you. Are you ready to proceed?

Customer: Well, I'm not very technical, but I think I'm ready, as long as you walk me through the steps. Tell me now, what do I do first?

Tech Support: The first step is to open your Heart. Have you located your Heart?

Customer: Yes, but there are several other programmes running now. Is it okay to install while they are running?

Tech Support: Er.....what programmes are running, can you list them for me?

Customer: Let's see, I have Past Hurt, Low Self-Esteem, Grudge & Resentment running right now.

Tech Support: No problem, you can go right ahead. Love will gradually erase Past Hurt from your current operating system. It may remain in your permanent memory but it will no longer disrupt other programmes.

Love will eventually override Low Self-Esteem with a module of its own called High Self-Esteem. However, you have to completely turn off Grudge & Resentment. Those programmes prevent Love from being properly installed.

Tell me, can you turn those off?

Customer: Umm....let me see. Actually, I don't know how to turn them off. Can you tell me how? Please help.

Tech Support: With pleasure. It's really quite simple. Go to your start menu & invoke Forgiveness. Do this as many times as necessary until Grudge & Resentment have been completely erased.

Customer: Okay, done! Wow, Love has started installing itself. Is that normal?

Tech Support: Yes, but remember that you have only the base programme. It's quite basic. You need to begin connecting to other Hearts in order to get the upgrades.

Customer: Oops! I have an error message already. It says, "Error - Programme not run on external components". What should I do now?

Tech Support: Don't worry, relax. It means that the Love programme is set up to run on Internal Hearts, but has not yet been run on your Heart. In non-technical terms, it simply means you have to Love yourself before you can Love others.

Customer: So, what should I do?

Tech Support: Pull down Self - acceptance, then click on the following files:
Forgive Self, Realise Your Worht & Acknowledge Your Limitations.

Customer: Okay, done. That wasn't too difficult.

Tech Support: Now, copy them to the "My Heart" directory. The system will overwrite any conflicting files & begin patching faulty programming. Also, you need to delete Verbose Self-Criticism from all directories & empty your Recycle Bin to make sure it is completely gone & never comes back.

Customer: Got it. Hey! My heart is filling up with new files. Smile is playing on my monitor & Peace & Contentment are copying themselves all over My Heart. It is normal?

Tech Support: Sometimes. For others it takes a while, but eventually everything gets it at the proper time. So Love is installed & running. One more thing before we hang up. Love is Free ware. Be sure to pass it & its various modules around everyone you meet. They will in turn share it with others & return some cool modules back to you.

Customer: Thank you, thank you so much.
